## Why “DYS”? EasyReading® Font

CZUR ET16 DYS is a brand new version of ET16 Plus scanner which uses EasyReading font.

EasyReading is the only font explicitly “dedicated” to dyslexic readers which, subjected to autonomous and independent scientific researches on the degree of legibility, has achieved positive results.

“The results, which appear significant from both the statistical as well as clinical point of view, allow us to affirm that EasyReading can be considered a valid compensatory tool for readers with dyslexia and a facilitating font for all categories of readers”.

*Christina Bachmann” in Dyslexia. Italian Journal of clinical and applied research” (no. 2/2013), Published by Centro Studi Erickson, Trento.*
